

Marriott Marquis Houston

COVID – 19 Guidelines

The current guidelines that we need to follow on property from the state of Texas is a 50% occupancy with the highly recommended use of the mask. Should anyone not want to wear one throughout they are encouraged to only when engaging with any of the staff such as at check in, restaurant hostess...

Marriott Marquis Houston has mandated the use of the mask for all our staff. Upon arrival each day every staff member gets their temperature checked at security and is issued a face mask and gloves that then forms a part of their uniform.

Any guests checking in who may not have a mask will be provided one for their use. The temperature check that you have mentioned for the staff I presume is for your staff, right.
